

# YOUNG COP

Press Kit

## Synopsis

In the fading Kentucky town of Princeton, 14-year-old Caleb Harlen is the only one still patrolling the streets at night. Wearing a uniform that doesn't fit, he drives the cruiser with his older partner, checking doors and chasing shadows while the town quietly unravels around him. When a string of break-ins escalates into a drug operation, Caleb begins connecting dots no one else wants to see.
